Profile

Frontend Developer with over 2 years of experience in developing responsive and dynamic web applications. Skilled in using modern technologies such as **HTML5**, **CSS3**, **JavaScript**, and frameworks like **React** and **Next.js**. Possesses strong analytical and problem-solving abilities, capable of working both in teams and independently.

Work Experience

Junior Frontend Developer

UpWork.com

Desember 2022 - Present

Developed and maintained web applications using **React.js** and **TypeScript**.

Enhanced application performance by optimizing code and reducing bundle size.

Collaborated with backend teams to integrate RESTful APIs.

Implemented responsive designs using CSS Grid and Flexbox.

Authored technical documentation for developed applications.

Middle Tester Quality Assurance

PT. Mandiri International Technology | PT. Bank Mandiri Tbk. (persero) as Client

Desember 2019 - November 2022

Test Planning and Strategy: Developed comprehensive test plans and strategies to ensure thorough coverage of all functional and non-functional requirements for banking applications.

Test Case Design and Execution: Created detailed test cases and scenarios, executed manual and automated tests, and ensured alignment with project specifications.

Defect Management: Identified, documented, and tracked software defects using tools like JIRA and collaborated with developers to ensure timely resolution.

Regression Testing: Conducted regression testing to validate that new code changes do not adversely affect existing functionality.

User Acceptance Testing (UAT): Coordinated UAT efforts with business stakeholders to ensure the software meets user requirements and is ready for deployment.

Performance Testing: Conducted performance and load testing to ensure the applications can handle high volumes of transactions and users.

Quality Metrics and Reporting: Generated and analyzed quality metrics to monitor the testing process and provide actionable insights to stakeholders.

Collaboration and Communication: Worked closely with cross-functional teams including developers, product managers, and business analysts to ensure alignment on project goals and quality standards.

Continuous Improvement: Implemented process improvements and testing best practices to enhance efficiency and effectiveness of the QA process.

Training and Mentorship: Provided training and mentorship to junior testers, fostering a culture of quality and continuous learning within the team.
